oh really?
didnt know that lol
just thought it looked cool
but can you give me a link where i can
download HUDS? cause i dont like the plain old normal one

is that renguard compatible?
i downloaded it and runnin renegade and this is what i get:

[00:28] Trying to connect to server #1...Connected!
[00:28] Secure link established.
[00:28] Welcome to RenGuard, JuSTDo0IT!
[00:28] To launch Renegade, please click 'Renegade'.

It's not RG compatible. You can find most of them on game-maps.net . The one just posted is a clear cheat. It contains radar hack, shows your building state, has advantage scrins and what else... And all that in one single screenshot.

it's not really a hack since you can only see your team's positions unless you have radar hack.. no
server cares so it's fine
