This has been asked already, but I've got a different variant. Potential Spoilers ahead: In the Black Hand's Grasp level, cathedral, hedge maze, etc. I've got the red key and have killed all enemies on the board. However, I cannot find the passageway/door/whatever that allows me to go down into the 'bowels' and retrieve the scientists. Where is the door/passageway/entrance/whatever? Thanks. PS. Renegade is an absolute hoot. If there isn't a sequel in development then everyone at westwood should be arrested !

Head to the eating area and keep looking for a route that heads DOWN. Down is important. Eventually you'll reach a door with a red seal.

Ok, my question is where is the red card? I've been over the level for like an hour and a half now and cannot find the card... who has it or where is it? I've killed everyone but the guys past the door I need level 3 access for... except for the engineer that keeps coming back that I keep killing, there's no one left (and I did find the secret in the book room, but no card there). Help!!

If you're like me, you're just running around blasting people, you see this door, and you go "Hey cool, I got the card. Wonder which dead guy I should thank." So don't ask me where to find cards
