I was wondering if anyone knew where to get a driver for a Cable & Wireless WLAN USB mini adaptor. Model number USBA10CW3. Please don't give me links to google and te manufactoers website. I've tried both these last few days for ages upon end without result.
Thanks.
Edit: Never mind, I got the solution. If there is anyone with the same problem PM me.

Why not just save the effort, and just post it here?
