I was wondering if C&C Reborn Infantry Beta (newest one). Is actually the REAL game too. Because I go into Reborn and load skirmish or lan or online and it stops at about 80-95% and completely closes out. I was wondering if anyone had any suggestions.

Well, first of all, you should ask that question here: <http://www.cncreborn.planetcnc.gamespy.com/>

Second, are you sure you downloaded the Infantry Beta and not the 2003 version? And if it is the right version, can your computer run the game?

*Edit: Also, this should be in the General discussion forum
