Just to reinforce this statement. It really is one of the largest and better known download sites for CNC Renegade, aswell as APB and CnC_Reborn.

Yes, Renegadezone is the perfect all around source for things of ancient origin and coated in many layers of dust.

Shit is old. Game-maps has cool stuff and is regularly updated so it wins in my book. RZ is mostly just drop mods and stuff anyways.

Erm, some of you are really wrong ^^

Renegadezone is a classic and worlds largest when it comes to drop-off mods and .pkg mods.

Game-Maps is a good and well-updated allrounder (because it's not Renegade-only).

The largest map collections were and are being held privately, the largest mappack you can download for Renegade is the Giga-Mappack from Zocker325. Get it here=
<http://www.stalker-contact.de/include.php?path=content/content.php&contentid =159>

By the way, earlier this year I have updated the "Community sites" part of the Renegade Wiki. Does anyone look at it? You will find tons of links related to our favorite game=
http://www.renegadewiki.com/index.php?title=Community_sites

I will update the Wiki in a few days BTW.

This topic here would be good for new user-made stuff. No need to create a single topic for one new file anymore...

I still released some skins on renforums.com (Fanboys finest, the flags...) so here we go=

xD It was funny, Scrin PM'd me "Nice siggy"

If you're interested, the text in the sig reads:
The Soviet Union lives on in our hearts!

and under that it reads:
Let fire burn the past.

Your site is awesome, I've been using it for a few months now for maps that I find the urge to play.

Good work man, keep it up.

I have a section for C-130 drop mods, even a new installer for them, just look around the forums for it, it's in the renegade mods section.

Also, "For Mother Russia Commrad!"
All Hail Russia!

And, EA-DamageEverything, nice box, while the logo needs work... If you made them. Where can I get the green water mod, or is that just the map?

EDIT: Oh yeah, madrackz, I would gladly use the gun (on page 1), even if it is "flat", or if it is only red, lol. Its still awesome.
