Even 5000 points with 41 kills I saw a guy do once. I have no clue. Anyone done it? What's the secret?

Maybe you Played on a modded server (Crazy AOW, CO-OP) on some

Server you get very much points for killing AI´s or it was a

Marathon server (Server without Time) and a long fight / round

Point whore with an arty and you can get around there for sure. It's easy to get first with a sak as long as you're headshotting everyone.

Where? Ihave problbly goten MVP atleast 5 times on every server I have played (I play the servers for a long time in a row, or just vs no-one)

Also, your not a n00b b/c you got MVP once, on the ooother hand, calling some one a n00b b/c of it would mean your a n00b.

Saying you got MVP by playing against yourself isn't a good thing when trying to prove a point...

If you're firing a weapon and "alt-tab" to the desktop, or someother application, you keep on firing. Some people do this while aiming there repair beam at the MCT and eat there lunch or something...

I remember doing so in MU online with a application that could hide the game. (form the desktop) or just put something on the mouse button
