It doesn't parse very well, I did release it a long time ago but the link went dead.

Only works with SSGM gamelogs.

Like I said though, it's hardly even worth downloading.

Mega bump.

I decided to try and pick this up again, but I'm throwing out my old version in case I leave/disappear/forget about it and someone wants to try and finish it.

EDIT: That source is very experimental and I'm sure anyone looking will cringe.
