I beat the game in all the difficulties! WOW was it fun. Also, one thing to all who have beaten the game is the ending just too short and ghey or is it just me!?

I agree the ending is a bit short. And it kinda annoyed me that the people you are supposed to protect run ahead of you and get their asses shot off, I could kinda understand when morbius(can't spell his name properly )runs ahead in his power suit and is armed with a laser chain gun, except he doesn't use it properly, but when sydney does it.. .Would have liked to have been given the chance to fire a couple of shots at Kane, but they have now given themselves room to make a sequel if they want to, which I hope they do

Yah the ending was a little bit disappointing, although I like the final words from Havoc "could have done it left-handed..". I was expecting some more after mowing down probably a thousand enemies, but I loved playing the campaign anyway.Hidden

If you ever played Tib-Sun, you would know that Kane was alive and well by that time, although his face and forehead were burned or tiberium-mutated, something like that. I believe that in the ending of Firestorm, Kane could be seen in a big glass tube filled with that wierd liquid. He lives still, but just nearly dead.

I agree "Marauder1187", I want the sequel to Tiberian Sun Firestorm, maybe he might become a mutant, or a cyborg??? Kane may even form another faction/side, and verse GDI and NOD??? Kane also still has Cabal as his AI, so it's not all over for him yet. I want Tiberian Twilight, and I voted it!!!-----"Inferior tactics detected" – Cabal"By the way, missile launch detected!" – Cabal

True the ending was like rushed...like a movie ran out of budget and decided to end quickly.

I thought that the ending was far too simple. They should have done something with Sekura or a message from Kane or some instant effects of tiberium mutation on Sydney. I like the way they run ahead. You may need to defend them better but at least they let you know where to go. When I started it I thought I had to take her down into the caverns or something where there was the rest of that tunnel that I didn't explore. Using the lift was too easy.
