2 years ago when i decided to use windows vista ultimate 64 bits i had to get comrade to play renegade, but today i cant play any server of renagde it looks for me like there is no servers. Need to find another way of play.

I need help ,... thanks

Why don't you just use XWIS? Launch the game, click Multiplay Internet>Westwood Online(AKA XWIS)>Advanced Game Listings, when the popup window comes up DO NOT PRESS NEW ACCOUNT, simply enter the name you want and then enter a password that is EXACTLY 8 characters long, if you see the server list populated with servers the nick is yours.
