Could any of you guys tell me what could have caused the following crashdump messages (errors)?

The Renegade Client tried to read from address 0x0c43cb5d

The Renegade Client tried to read from address 0x4661dd7a

The Renegade Client tried to read from address 0x47c684d6

The Renegade Client tried to read from address 0x4aeed16e

The Renegade Client tried to read from address 0x00000034

PS, the crash messages were not all in one crashdump.txt but each in their own

(Man just ain't my week, these crashdumps came one after another)

Aaand those error messages are completely worthless. The crashdump has all that information in

it for a reason.

here's one

```
File Attachments
1) crashdump1.txt, downloaded 389 times
```
