Hello Renegade Community,

I (Shadow/Sh4d0w191) have started a new community along with my friend (P4L-DK/EKT-PuZo) and (Dean/EKT-Lemon) called Steam Gaming. Although the name would suggest we are purely geared for Steam games we also have a C&C Renegade Section and as such have a C&C Renegade Server, we also have a temporary server setup on elitekamikazeteam IRC until we get our own irc setup.

Server Details

Name: Steam-Gaming.com UltraCTF

Hostname: A00DG1

IP: 82.5.102.238:8345

Slots: 24

Temporary IRC Details

Server: irc.elitekamikazeteam.com

Channel: #Steam-CTF

(Coming Soon): irc.steam-gaming.com

We are also looking for mature, active, players to moderate the CCTF server, so if you think you have what it takes make an application on our forums.

Regards,

-Sh4d0w191

K shadow I am on. Hope the community goes well. Oh and anyone else who sees this, me and SHadow are Starting a clan for Renegade called [GUN]! Yes you've heard of it before! [GUN] was an old renegade clan who merged to create [L0d]. Now me and shadow have decided to make a new [GUN] and start recruiting. We have been told countless times that you cannot recruit for a renegade clan anymore but were are gonna give it our best shot. We have set up a basic site (not

remotely finished yet) at <http://gun.tiberiumcore.com/> and are working on getting it finished soon. In the meantime you could add me on msn or email me @ lightning36@live.co.uk. I will post a proper thread when the site and stuff are ready!

GOOD LUCK STEAM-GAMING!
