Anyone get this game yet? I have, and it is insane. Definitely my new #1 favorite Guitar Hero game. Not only does it have the largest set list out of all of the games, but it has the best songs too! Not to mention the whole band experience... I spent the last 3 days trying to learn the drums... on Medium <\_<

So yea, anyone else get this game? Do you like it?

There were tons of people waiting to get it at midnight while I was working. We had tons of copies of the game, lots with 2 guitars and only 10 of each big bundle. Needless to say some people were pissed but oh well.

GH > RB. Hands down.

All Rock Band did was raise the bar for this genre of game... the bar that was originally redefined by Guitar Hero. But Guitar Hero World Tour raises it 10x higher than ever before.
