Aaaaaaaaaand youu can probably kiss them goodbye in a very short time, because Chrysler's likely new owner, General Motors, will make sure to trash the Challenger. After all, the Camaro could use one less competitor.

Epic FAIL

Even a modded dodge fails to keep at least all wheels to the ground.... You would expect that they would at least try to make it able to do corners reasonably...

That's what chevy's doing to the RS/SS version of the Camaro hopefully. It should be called the Camaro SS ZR1. I'd buy that, 6.3 liter supercharged V8 in a Camaro.
