Reneskins were really only popular in the first couple years of C&C Renegade, and then after that people got bored of them, and decided to throw them all out except for their clearscope.

I've been playing C&C Renegade pure since about '04

I'm 'kinda' pure, as I'm using and still, trying to find skins, W3D files, which make Renegade, as it had to be in multiplayer.

- W3D files for FlameThrower gas backpack, Chemmer BackPack, Doza Cigar
- Skin for the scope which makes it, as you look through a barrel (but atm, using ClearScope xD).
- 'Dot' Crosshair.
- Single Player Ob for Multiplayer

Trying to find:

- Beta MED to use in multiplayer, any maps.
- Anyone got any suggestions?

THATS MY SCREENSHOT 11!111!111Shift!11!!11

A perma ban... for 3 days! Unfortunately this forum software does not allow you to give a ban reason that the banned person can see.

Must be a sign of Renegade rebounding into popularity.
