Are you running Windows Vista?
If you want Renguard gone go to your Renegade folder: C:\Westwood\Renegade and look for the "uninstall Renguard" icon.

What in the Hell drives someone to join the forums and then post something about RenGuard when there's clearly a separate forum specifically for RenGuard?

Error 00000005 + Vista = Causes by you, not running Renguard as an administrator. Run it, by right clicking on it, and 'Start as administrator' or something like that.
