We have all seen the Spam Fest Forums and what it says there in it "All other rules still apply.". I think that the mods should specify those rules, because a bunch of mods just change the topics when ever they feel like it there, but they wouldn't necessarily do it in most of the other sections, thought they do when it is necessary in them.. Therefore they are kind of breaking the rules that is why I am asking to specify the rules in it.

I'm all for trashing the spam fest subforum and made a suggestion in that sens in the moderators lair. The whole thing just shouldn't be there in the first place.

I 100% agree the Spam Fest subforum should be deleted.

I hate the spam fest. Full of obscene words and insults and PURE stupidity. For a forum that is supposed to be the last stand for a great game, it is an insult for the spam subforum to exist.

I agree too, but that's not saying I don't enjoy using it.

Don't if you do they will start spamming everywhere else.

Contrary to what you think, I found that the spam fest did not clear the other subforums for spam but just created new and ridiculous spam that we never saw before the spam fest subforum was made.

And moderators have to waste time moving them to a separate thread in the spam forums just because it exists...
It should be torn down like the Berlin Wall!
