In the JellyServer Skins section, there's a crapload of Red VS Blue skins for vehicles, but the one for the flame tank is broken. So...

1] Does anyone have that skin?

2] If not, does someone have a skin for flame tank that is a recoloring to some blue-ish color?

i don't have it, but there is a skin that changes the flame tank toa ice tank. (changes the tank to look frozen, and the fire to look like ice).

I really appreciate it

Also I tried out icy flametank, looks really nice but I prefer my RvB skin set to be complete, so thanks again.
