Hey

You heard about Google.com? Its a nice Search-Tool. You can such things very fast, if you can use it. Remember, google is your friend.

Maybe it is here at the forums. It has a Search Function, works pretty good. Search

Maybe you could try those 2 methods

if it's so easy, then how come no matter what i try, i have never been able to create a working skin (for dds)? Also, the allways.dat is really hard to navigate,is there a program that has the find tool in it?
