I have a full purple tib pack all tib dds files and w3d files so if you need a name just ask heres the name of the one your looking for

its rather this

19_grnglob1.dds

or this

tib_scorch01.dds

ow, thanks for that

but...

srry, I need a other file:

it's the smoke coming from it, the green smoke

what is the name of that file?

help would be appreciated.

i think you wasted your time on making a special topic about this.. just search yourself next time, its so easy to find with w3dviewr. took me 3 minutes to find it.

its e_tiberium2.w3d

Ehh jerard, read again. He wanted the emitter file

LR01 wrote on Tue, 11 November 2008 11:07

it's the smoke coming from it, the green smoke
what is the name of that file?

help would be appreciated.

And LR01, you dont manual rename the w3d files are you? because it will crash then. re-name them in w3dviewer. Im pretty sure you did something wrong. Why would it crash with an edited emitter in your data if the normal renegade uses emitters to..

Problem is not that simple I see now, I merged the always.dat and always2.dat from the original regenegade, still crash

Why happens when you shoot your buidling whit a chemsprayer?

I had a prob like that, it was whit the pistol, I found a box named EJECT, I needed to delete and export it.

Just redoing the chemsprayer would be necessary I think, then I wonder, where is the it that makes it crash in the chemsprayer, since it only happens when you shoot your own buildings, shooting on the ground is fine

I don't know how WW made ore coded it, that is my problem, some weapons appear to call up some things

(I think EJECT is used for the bullets coming out the pistol when you shoot it)

well it's the place bullet shells fly from.. but in chem sprayer, flamer and others it doesn't do anything (since it ejects nothing)

I just found a simple solution,
quite funny how something that looks so complex can be so simple,
I just needed to change the warhead type from chem to bullet,
it works perfect now, still I wonder why it would crash with the chem warhead, only when you shoot a building

anyway, thanks for all your effort
