I love blacky's islands. I've waited for it for awhile now.. I only have 1 problem with it...

Notice those skins seem a bit out of place.. if some1 could help me fix this I would appreciate it!

can you please stop spamming new topics

i suggest fusing this with the main Egypt islands topic

Most likely means that you have two textures named the same thing, I would check your Data folder for any loose textures.

I also found that when I walk through the sand where the water is in the original, it sounds like i'm walking through water. How would I change that sound to make it sound like I'm walking on land (one used it Renegade).

i don't know why this is happening for certain people.

what renegade version do you have  
what script version  
what other modifications

Renegade 1.037  
Scripts 2.9.2  
Skins in my directory

I'll try removing skins and playing, see if that works, if not I'll report back. Don't worry too much it's not a big problem with me

Still doesn't work - but don't bother with it, it isn't worth it.

I hope you make more new creations like this though, great work and good luck to any future endeavors

---
