I'm not sure at the moment but I think I write tutorial about "The creation of HUDs" (with the scripts-system). At the moment I'm working on a little page where you download all the stuff I made for Ren.

DID YOU NOTICE THE FLYING NOD TURRET SO HE CAN SEE PEOPLE HIDING BEHIDE IT???

The mines I like, they are pretty cool to be honest, I wouldn't include them in the cheat category but as in the unfair skins category, I would use them.

Scrin is a cheating little shit, but if he decided to go clean and release his skins, then am pretty sure a lot of people would download them, the skins I have seen in his screenshots are top notch work, hes got some real skills in that area, it seems that our Reborn is converting him to the jedi way.

hmm forgive me, but you know the date of that screenshot? i made it in october 2007... and about that flying turret... my mate made it, but he got mismatch with projectile-model position (its old APB turret)
so now all this is legit
