That website's navigation is so confusing

How long has it been like that? I tried visiting the Downloads Centre (just to see what was there) and the buttons weren't working.

Not bad Tib Skin, I think I'll recolor it to red for fun

I've been busy a bit

And I don't see the rock on Under as an advantage skin, seeing how white makes it easy to see ppl and vehicles more than brown does...

Also tib crystals are red now

I'm having fun with Paint.net
