You can't download the rims. You would have to copy-paste the rim into a different skin.

If you want it on your NOS skin, send me your humvee skin and his skin with the rim on it.

ChewML, nice color set you have there

hmm nice, but maybe you could try to create reborn's gdi mud-camo style hummer? (just like amphibious apc texture)  
or med tank

You can't download the rims. You would have to copy-paste the rim into a different skin.

If you want it on your NOS skin, send me your humvee skin and his skin with the rim on it.

ChewML, nice color set you have there

put the normal skin and the chems on top of it delete everything except rims, merge and voila u got norm skin with rims. (I JUST HATE RIMS ON VEHICLES CUZ THEY ARE PHLAT!)

what vidoe card do you have and how mcuh did it cost Chewml

i have a video card that came with my computer and i getlike 40 fps in aow servers at the lowest resolution.

im thinkin of getting radeon hd 4670, would that allow me to play in high resolutions with decent fps

(CPU1) AMD Phenom™ 9500 Quad-Core Processor @ 2200MHz (ECS MCP61PM-GM mainboard) (RAM) 3GB, 1.95GB free (HDDs) 465GB, 334GB free  
VGA1) ATI Radeon HD 2400 XT (256MB), 1440x900x32, 74Hz (OS) Microsoft® Windows Vista™ Home Premium

I bought this desktop almost a year ago for like \$1,200. The card came with it, coz it was all setup for HD. Nothing too fancy though.

TBH, I have no idea. I can only assume that your new aftermarket one would be better seeing how mine came with my PC almost a year ago, and seeing how PCs are outdated within liek 1 month now...

Mine is not really built for gaming, but it gets the job done.
