It'll get sorted, stop worrying.

it was impossible, because for you and for cAmpa's client all works perfectly, since you dont know the problem, you cant fix it (testing the whole shaders code will take ages)
well, anyway, thank you for awesome job mate, if you need new texture or something, send me PM

its time for me to put Ren CD into trash can...

Please do! Please do! We don't need fucking cheaters.

@ reborn, good job, though I find that you made a pitty choice in possible partners.

What the hell is your problem? Do you realize this guy is a fucking cheater, and he's proven that to the entire Renegade community billions of times? Just becuae he collaborates on a nice little deed every other goddamn century does not suddenly make him a nice guy. Why don't you fucking pull his dick out of your ass for a minute, look around and see what's really going on.

I think this HUD is a really cool idea, but I have to agree with EWD, that's a brilliant choice of graphics artist.

However I'm still looking forward to this. Hopefully it'll be bundled with TT, so it won't be limited to the people that visit this forum using it. As YazooGang said, that would be a little unbalanced no matter how you look at it.

EWD is a member of that forum, just as many members of that forum are members here too. He doesn't create or distribute cheats. He's one of the good guys, and infact a member of the team that developed BIATCH, an anti cheat program for server owners.

Please stop trying to "muddy" this thread, it's really supposed to be something nice for everyone.

Not really. Although he doesn't code it, I'm sure EWD puts a lot of time and effort into developing BIATCH to stop people like him.

Every time I see you post you are either randomly cursing someone out or just being totally ignorant about something...

But what if I wanted to park my Mammoth tank inside of your Refinery? I can't if it has those stupid walls there blocking me...

You should just disable all the collisions.

You've got a point there. Also, sometimes I can't see my teammates well from far. Can we make their characters a bit bigger as well?

Why the complete character? Just make the head bigger, so it stands out some more.
