You guys, you all need to pay attention to me and worship the fucking ground I walk on, because I have some customized .ini files and textures that change my Command and Conquer: Renegade gameplay experience slightly.

LOOK AT IT.

NO, LOOK AT IT SOME MORE. THIS IS THE PEAK OF MANKIND'S CREATIVITY.

None of you will ever be as great as me. I'm doing you lowly peons a favor by letting you see these pictures, because clearly everyone here will never reach the level of C&C: Renegade modding omnipotence that I posess.

Please leave positive comments and PM me begging for the files. I need my precious ego stroked.

PLECOS

I've corrected a few bugs and a crash bug in shaders.dll that you'll need if you're serious about making a release. I would be happy to help you.

he only made them for fun, not for cheats
and i want to say that he is awesome.

and i'm not saying that canadacdn is bad, he is cool

edit: plus, there are not alot of leet renegade modders in this community, so maybe respect the one that are here. please

Massive boner.

Also, YazooGang, that's stupid as fuck. Do you realize he named the topic "The ultimate advantage skin" or whatever? How can you expect anyone to take you seriously saying he didn't know it was a cheat?

Skin is another word for texture. Advantage skin is basically a texture replacement in the game that gives you an unfair advantage over everyone else, AKA a cheat.

Did not know you didn't get that, but yeah. And no, I don't think you're an idiot, I was just pointing out that your statement was stupid.

ur kind of creeping me about me wanting to have sex with scrin and di3hard...i know u have fantices but please, keep them to yourself.
STOP, I DONT WANT ANYONE FIGHTING BECUASE OF MY POST..

LOL, he has a point, he did say that. And rn't we getting a little off topic?

Also, this is a joke thread right? LOL, i don't really think i will get an <decided it might be

inapropreate to but proper word here> from images like that. But i did notice you posted :

Images from RP2Map, Your $is 93499, and the times is 16 hours! Also, i think the rectile ur using is a little... big to my opinoin. I know it's not, but it takes up too much space, and is too boxy, how could you like an rectile like that? I also noticed verry slight diferences from the original hud that looks like it came from (Sir Kane i think, but not shure).

=samous

PS:i just like to talk alot, lol.
