I got the same problem as this guy: <http://www.renegadeforums.com/pdf.php?th=24527&rid=0>

But he didn't get an answer please help me!

I got the newest patch by westwood, and if i try to install 3.44 I can't start the game, I just get a error message. I've been trying to get this working for 2 days now, I've reinstalled the game over 20 times now.. I would be very glad if any one knew the problem! // ty yooz
