I have reinstalled my pc, so after I installed 3DS Max I putted the plugins in.

Now when I load 3ds MAX i get this error :

For some reason the exporter doesn't work for me..
and i did install DirectX Update, so thats not the solution.

srry, but direct x is the only thing I can come up with, are you sure you use direct3d?

I'm afraid I can't be of much help
