1) Anyone got a program that they KNOW IS SAFE & FREE to rename multiple files, no trails please, Google gives crap one and one gave me a virus lol

2) Whats a good program that can edit the information on a music files all at once? (like edit multiple files artist,album etc)

<http://www.mp3tag.de/en/>

Yes, it does both. I won't go into length to tell you how because it took me all of 5 minutes to figure it out.

Edit: You only have 2 requests, so it's only a "couple", not a "few".

<http://myprogramspace.blogspot.com/2008/07/krename-multi-file-rename-tool-v0.htm> I

Easy to use and free.

Program is called Ken rename.
