Anyone want their name on something?

Provided I know what skin to edit and provided it isn't a huge / impossible job, I will.

I'm in the mood to skin but have no ideas.

Those names on the PT are friends of mine on Renegade.

That P.I.C. uses several skins, I found that out by trial and error.

Here's ALL the Pt's with your name + Orca on it. If you want just the AGT to have it only put the one in the Data folder that starts with ' agd_ '. Enjoy.

Ooooooh... I'd like a PT with my name on it, in black if possible, and I'd also like it to display the current time please. I often lose track of time whilst playing, so it'd be really handy.

Sorry, I can't Your name's color is irrelevant, it has to do with the current health of the building and putting it in black would make it invisible. And the skin is a simple image, that's all, so it can't display the time. (Get X-fire. It does this wonderfully.)

I will make one with your name + a pic or two if you want.

Um, you might want to be a little more clear... which, put 'nemo' or 'cookieEMD' on them? I'm pretty sure I can, I did with anant's, except he immediately asked me to make new PTs with Tyra Banks on them

ATM I'm constructing a new building for my mod (Pier), so I have to change the image on the purchase terminals.

What files I have to change?

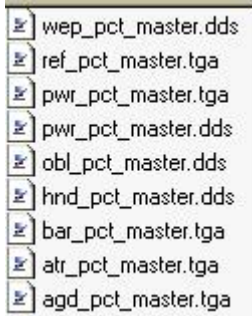

I ask, because I see, u have done that on the first posting

Each building has a corresponding dds or tga file for its PT. (I have NO IDEA why some are dds and some are tga... it's weird!) Just open those in your favorite editor and edit away.
