I got my FDS to run but i can't get BR to run i get this error:

"Looking for ssgm logfile at C:\westwood\Renegade\Server\SSGM_1-19-2009.txt..."

"ssgm logfile not found, renewing wheel in 120 sec..."

Then it does that for ever

Do you have SSGM installed? Or do you even know what that is?

Be sure you have the newest BRenBot. It should install SSGM by default so be sure you have the newest.

Also make sure you set the installation path correctly in brenbot.cfg
