If you want a re-coloration of Deathlink6.0's HUD, but are unable to do it yourself, I am open to requests. I tried to make different shapes but it didn't work :/. Here is a sample:

All credit to HUD goes to Deathlink6.0 and anyone who fixed bugs/built upon it. I am not credible for making this HUD, just recoloring the skin that came with it.

Delete "d6hud.dds" out of your data folder, but you'll lose the health/ammo bars.
