I have stolen my little bro's power supply on his PC so I can finally play renegade and stuff again! YAY!

But unfortunately all the members who were working on Plastic Revo just suddenly (stopped talking and everything)

So I'm gonna start up a GoldenEye Multiplayer re-make; with (SOME) graphical enhancements, new levels, and so on =).

But all I want to do is work on levels and main menu, that's it. So if anybody wants to help; I'd really like some help!

I mean it sounds like it would be a blast playing a Goldeneye remake on rene .

Thank you .

And now that I only work 1 day a week now (GAHH THAT SUCKS) I have plenty of time to work on maps and stuff .

So anybody who would like to help make this GoldenEye mod; let me know, all your help will be greatly appreciated .
