I have 3 observations

- 1: wtf is a netbook
- 2: double post ftw
- 3: lern2peripheral

Also, +1

I really don't know what to do with this topic.

I'm tempted to clear up the double post, remove some others, and place it in the technical support section to see if anyone can provide suggestions.

I could just move it to the spam fest.

Choose, Nikki.

I've heard roof gnomes can significantly increase the FPS on Renegade.
