hi, im mylo.. ive been away for about a year..

im back.. and dieing to play renegade..

so i need help..

while i was away for a year.. what changes about renegade?..

i need to know the steps i must follow when installing renegade..

like i installed renegade.. what i need to install next?

like what is the latest patch and link pls?

and is renguard still being used or any replacement for itself?

just need a detailed guide how to install renegade and patches renguard etc..?
