Hey, single player modus again In this mission, you have to open a gate. In the mean time, you get some other objectives, like destroy a Tiberium Refinery. When I did that, I walked on, and came by a 'Obelisk of Light'. I've destroyed it, after 10 times tryin', destroyed the SAM-sites, but the gates won't open yet. I can see a card or something, but that one's at the other side of the laser-fence.. Can someone help me how to open the gates, then i'll find out myself how to destroy the laser fence.Thnx in advance!Ps.I've done it all withoud using cheats, but i wonder.. Are there cheats for C&C; Renegade?
