Hello and welcome to renforums.

Did you follow these instructions:

<http://www.renegadeforums.com/index.php?t=msg&th=25764&start=0&rid=4> 882 ?

Could you have a firewall (or peerguardian2) blocking the connection?

What's your operating system (Windows version)?

As said before: try turning firewalls off (maybe windows firewall is on?) and check if that works. Also make sure you don't have peer guardian 2 running (if u don't know what it is, then u prolly don't have it running).

Please also be aware that WOL has been down for a couple of hours a few days ago.
