## 

Quote:Comet Lulin, named after the observatory in Taiwan where the discovery-photo was taken, is now approaching Earth. "It is a green beauty that could become visible to the naked eye any day now," said Ye.

Well, guys, I'm off to go join Nod. I'll send your regards to Kane and the rest of the Brotherhood, it's been tight.

Really interresting.

Im not joining nod at this matter, i dont want to be a mutant.

Scared off them, give me a vtol orca .
