Vista 32-bit, laptop

Processor: 1.8 ghz

Ram: 2 gb

Video Card: ATI Radeon Xpress 1150

Running the game as administrator and in compatibility mode

Disabled User Account Controls

Turned off the unneeded start-up items and unnecessary services through the System

Configuration Utility i have tried all this and cant get it to start the first window comes up then it says it quit working what can i do

As said in your other post: did you try everything that's in the FAQ sticky?

Also, please don't double post but edit your first post when u want to add info and none answered yet .

Edit: closed this topic, continue discussion in the other topic.
