Here are digital camo patterns for both sniper rifles. i decided it'd be more neat to put them both in one topic so enjoy.

It's nice that you want to share those skins with us, but please, make a pack. The mod release forum is being messed up by posting only one skin at a time. You're having 4 topics with the same subject already.

I don't mean this in a bad way, it's just better if you update 1 of the 4 topics with new skins every now and then. I suggest you just finish the skins and then release the "Digital Camo Weapon Pack".

Anyways, looking good those skins
