Whats wrong with that HUD icon / its alpha cannel?

Strange green lines shown instead of icon after purchase of that airstrike flare beacon (1).

after i bought a nuke beacon additionally, all seems to be ok (2)?

See here:

O.O

Never thought of doing that.

Anyway, I suppose it's because the flare isn't meant to be shown like that? (maybe, lol..)

thx. it doesnt help, but it explains the bug

"The weapons only want you to die once before they display"

No it wasn't a PKG in my topic :S

Also i never knew what caused it

I believe the broken text and broken icons were 2 unrelated problems. The text was fixed by replacing corrupted text files. The broken icons remained.

yes, 2 unrelated problems.

would be nice to have a solution for the broken icons too.
