Ah I liked the old design myself, the Green was flashy, but this is still as good.

It's nice you finally got rid of the requirement of having to register to download something

Support lower resolutions while you're busy with the downloads page...

Ha, it wasn't designed right. The width of the content portion is probably fine, but the way it's positioned doesn't exactly work for lower resolutions. I forget what was done wrong exactly in the CSS, and I'm too lazy to figure it out to help, but it's a simple enough of a fix.

Fixed width problem.

Also added the renegade link.

Renegade & c&c 95 works now. Gotta add more downloads.
