I saw the new screenshots. With the air patch the hand of nod has changed and has a roof. I saw the walls map has changed too. What could have be changed more.

Yes, but since most of us can't get the patch, that's not an option. Until they release it, we'll just have fun with what we have.

quote:Originally posted by Zavian:i dont think the hand o nod changed... it always was like that...If you look at the screenshots http://www.havocide.com/features/aircraft_impressions/ There's a way up to the roof of the hand of nod. And where the big walls are in the walls map there is sort of a bridge where you can stand. Still waiting for the popup that says there is an update waiting for you....
