Hey guys. First, hello.

I have my server now and I thought I can make a building server. There are still tuts but are there some else?

I'm not a noob I play long renegade and I made some maps in LevelEdit and GMAX, too.

Thanks.

There is nothing about renegade building servers.

If by "buildingserver" you mean commands like !build guardtower, !build turret, etc, then I would suggest looking into the SSGM Lua Plugin:

<http://dcomproductions.com/downloads/luaplugin/luaplugin-4.0.zip>

Support Forum: <http://dcomproductions.com/forums/viewforum.php?f=14>

PGPG just because you've seen my building server doesnt mean its easy and simple it took me 3 years of learning and editing to get to where i am today, its seriously hard. ATM it is all on C++ i converted from lua a while back.

Lua PlugIn is cool. Better for someone like me who don't really can script. Thanks!
