Hey ppl

I need help....

When I join the game and press ANY key on my keyboard, ren will just close down(so can't play)....

Do you know what could be the problem?

I re-installed scripts, removed them, removed mods re-installed ren-- everything, but it just won't let me play it...

What do you mean by "close down", Ren will Minimize itself or just exit completely? I'd assume you mean exit completely.
