hi i have the following problem and i can't find a answer.

fresh install of win xp sp3
fresh install of renegade w update latest version blah .37
then i installed renguard core patch 1 and 2, and script 344.
and all map pack's from newmaps server unrules.com
i use renegade ip 1.0.5
following setting
C:\Westwood\Renegade\game.exe
user-name dutchgenerall
server ip 174.36.33.50 port 4200
so far so good !

renguard Say's :

```
[23:41] Trying to connect to server #1...Connected!  
[23:41] Secure link established.  
[23:41] Welcome to RenGuard, Dutchgenerall!  
[23:41] To launch Renegade, please click 'Renegade'.  
[23:41] You have been disconnected from RenGuard, Dutchgenerall.
```

evrything goes well renegade starts show's battlefield.
then see rg message.. then back in windows that i am disconnected !

firewall's are off even in my router !
i do not get it.. played Manny years but never encountered this.

system spec's:
quadcore 9550
ati 3780
4GB ddr3 only 3.5GB in use.

thanks 4 helping me out !

that was it

now i got no problems.... but on newmaps i want use renguard.
coz i want my stats be recorded and use ingame commands.
and on this server i gat a anoying popup screens wenn i do not use it.

need still help !

Play on a different server then if you get popups saying you have to use an old anti-cheat system...
