Question: How many apaches can fit inside a Hand of Nod? Answer: 6 By accident i've found that you can simply fly apaches through the windows in the hand of nod. Also, you can drive the recon bike into any building (i think)

It's a bit crowded in there

Nice pic.

Hey wanna do something really cool? just make sure you take a pic (i have no place to place it) but if you play the city mod with recon bike and drive really fast you can drive up ramps! you can drive up the weapon factory's ramp and fly over the thing that makes you can't fall down, it's really cool, i've tried but have no pic.
