So, I reinstalled ren. But I lost the case which contains my serial... Now I used a fake/cracked serial or w.e you call it but with that I can't use my old nicks nor create new ones... So now I'm using gayspy, but that's well...you know...gay and makes it impossible for me to play on jelly ;/

Any help?

Yes, find your serial or buy a new one.

You're welcome.
