!vehicles/!ve - This command will display all the current tanks on the map, this includes the harvester.
!building/!bl - This command show the buildings ingame and there health.

Can anyone help me with these commands,
already setup only show in admin channel not public irc what file may i approach?

If your using BRenBot open commands.xml in notepad

Find;
```
<command name="buildings">
  <permission level="2"/>
  <syntax value="!buildings"/>
  <help value="Displays all buildings and their health"/>
  <enabled value="1"/>
  <group>irc_admin</group>
  <module>gamelog</module>
  <hideInHelp value="0"/>
</command>
<command name="vehicles">
  <permission level="2"/>
  <syntax value="!vehicles"/>
  <help value="Displays all vehicles"/>
  <enabled value="1"/>
  <group>irc_admin</group>
  <module>gamelog</module>
  <alias>ve</alias>
  <hideInHelp value="0"/>
</command>
```

Replace it with;
```
 <command name="buildings">
  <permission level="2"/>
  <syntax value="!buildings"/>
  <help value="Displays all buildings and their health"/>
  <enabled value="1"/>
  <group>irc_admin</group>
  <group>irc_public</group>
  <module>gamelog</module>
  <hideInHelp value="0"/>
 </command>
 <command name="vehicles">
  <permission level="2"/>
  <syntax value="!vehicles"/>
  <help value="Displays all vehicles"/>
  <enabled value="1"/>
  <group>irc_admin</group>
  <group>irc_public</group>
  <module>gamelog</module>
  <alias>ve</alias>
  <hideInHelp value="0"/>
 </command>
```

(Or just add the two <group>irc_public</group> lines manually)
