GDI got jealous when Nod done up their interiors so they decided to upgrade theirs aswell in their own style.

It took me while to decide which floor to use so I decided to choose both. I got this idea from 1 of Scrins screenshots. This is the GDI logo from Tiberian Sun.

Of couse you get to choose which floor to use.

Anyway enjoy.

Are you also going to do the Wall and tunnel sections for GDI, in the same style as the Nod Advanced Interior download?

Edit: And AGT interior?

Edit2: Would it possible to have like 2-3 GDI Logos on Bar's Floor only (not other buildings), like the Nod Logos in the HoN?

I edited the wall sections and tunnels when I did my GDI base skins but I have thought about changing them to the interior style like I have done with Nod's walls and tunnels.

Edit: And AGT interior?

The AGT interior is also its outdoor skin.

Its floor is the same skin as

- the War Factory metal floor outside

- Someparts on HON

- Airstrip Floor

I can't think what to do on that skin ATM since everything i've tryed overall turned out uglier than the original.

Edit2: Would it possible to have like 2-3 GDI Logos on Bar's

Floor only (not other buildings), like the Nod Logos in the HoN?

The HON uses 2 different floor skins so I edited 1 of them to be the Nod Logo.

All the building floors for GDI (apart from AGT) use the same

skin so I can't have the Logo floor in only 1 building.
