That level was a little stupid. I'd been carrying around a beacon since the second level(the guy in the hut gives it to you. There is also another one in the hand of Nod in armoured assault). On this level-where'd it go?

Use the mammoth tank to destroy it or sneak into it by running behind the rocks that conveniently

lead all the way up to it.

The beacon is right in front of the temple. After you turn off the laser fences it will appear next to the upgrade medal. To the right. I missed it the first time I did that level.
